

A GROUNDBREAKING EXPLORATION OF INTERRELIGIOUS/INTERFAITH STUDIES

There is no longer a question as to whether the interreligious/interfaith field exists. But its meaning and import are still being debated. How is this field distinct from, yet similar to, other fields, such as religious or theological studies? What are its motivations and key questions?

In other words, what is the shape of interfaith and interreligious studies, and what is its distinct contribution? These questions are the driving force behind this anthology.

“A powerful and essential tool for incorporating interfaith studies into a variety of settings.”
